EDUCATION

Netaji Subhas University of Technology (Formerly NSIT) <i>B.Tech in Computer Science, CGPA: 8</i>	New Delhi 2022-2026
OPG World School <i>CBSE Class 12: 93.2%, CBSE Class 10: 96.1%</i>	New Delhi 2019-2022

EXPERIENCE

Software Intern (Quantum Simulation) GitHub <i>DRDO</i>	May 2025 – Present
- Building an interactive Jupyter notebook for quantum optics simulation, improving simulation efficiency by 30% using VS Code and Jupyter and created a user-friendly GUI with Tkinter and Streamlit - Implementing PPKTP SPDC simulation workflows integrating Python computation and visualization, enabling faster analysis for research teams.	
Full Stack Developer Intern GitHub Live Site <i>Charismatic Electronics</i>	2025
Built a custom MERN stack e-commerce platform for a transformer manufacturer, reducing order processing time by 25% and increasing customer inquiries by 15%.	

PROJECTS

Charismatic Electronics GitHub Live Site <i>Tech Stack: React.js, Node.js, Express, MongoDB, NodeMailer</i>	2025
- Built a custom MERN stack e-commerce site for a transformer manufacturer. - Features include a dynamic product hierarchy, custom quote forms, and file uploads. - Includes a dashboard, contact forms with email alerts, and secured form submissions.	
Portfolio GitHub Live Site <i>Tech Stack: React.js, CSS-in-JS, Framer Motion, React Hooks, IntersectionObserver API</i>	2025
- Built a responsive technical portfolio to showcase projects and skills using modern React tooling. - Integrated animations and section triggers with Framer Motion and IntersectionObserver for an interactive UI.	
Severity Classification of Code Smells GitHub <i>Tech Stack: R, Python, scikit-learn, LIME</i>	2024
- Developed machine learning models (regression, multinomial, ordinal classification) to classify the severity of code smells for prioritizing refactoring. - Applied LIME algorithm to improve model interpretability, enabling clear explanations of predictions.	

TECHNICAL SKILLS

Core CS Concepts: DSA, OOPs, DBMS, Operating Systems, Computer Networks
Languages: C, C++, Python, JavaScript, HTML, CSS
Frontend: React.js, Next.js, Tailwind CSS, ShadCN UI
Backend: Node.js, Express.js, MongoDB, Nodemailer
Databases & ORMs: Firebase, Neon (PostgreSQL), SQL, Drizzle ORM
Tools: Git, GitHub, GCP, BigQuery, Looker Studio, Vercel, VS Code, Jupyter Notebook, Google Colab, MATLAB

ACHIEVEMENTS

Google Women Engineers Scholar: Selected as one of 200 students nationwide for a fully funded two-year training program. Received a cash scholarship of 1,00,000 from Google.

Codess Cafe: Selected as a mentee for a pro-bono mentorship program for women in tech.

National Talent Search Examination (NTSE): Cleared stage 1 with 11th rank in Delhi. Selected from over 1 lakh candidates nationwide.

NSEJS Examination: Cleared and ranked in the top 1% among 45,000 candidates nationwide.

JSTSE Examination: Cleared with 39th rank in Delhi region and received a cash scholarship of 2,000.
